Objective

Computer Engineering graduate specializing in Frontend Development with hands-on experience building scalable, responsive web applications using React.js, JavaScript, Redux Toolkit, and Tailwind CSS. Passionate about creating intuitive user experiences, writing clean and maintainable code, and continuously learning modern frontend technologies. Seeking an opportunity to contribute to innovative software products while growing as a Frontend Engineer.

Experience

Frontend Developer

Freelance & Academic Projects

2024 – Presenth

- Developed responsive and modern web applications using React.js and Tailwind CSS.
- Designed and implemented user-friendly interfaces with a focus on usability and performance.
- Built reusable React components to improve scalability and maintainability.
- Integrated REST APIs using Axios and handled asynchronous data fetching.
- Managed application state using Redux Toolkit.
- Implemented authentication, protected routes, and user dashboard functionalities.
- Developed audio recording and playback features for AI-powered applications.
- Collaborated with backend and AI teams to ensure seamless frontend-backend integration.
- Optimized application performance and enhanced user experience across different devices

Education

Bachelor of Engineering in Computer Engineering

Modern Academy for Engineering and Technology – Cairo, Egypt

Expected Graduation: June 2026

GPA: 3.12 / 4.00

Relevant Coursework:

- Data Structures & Algorithms
- Operating Systems
- Advanced Database Systems
- Software Engineering
- Artificial Intelligence
- Machine Learning
- Computer Networks

PROJECTS

1. AI Deep Clone Platform (Graduation Project)

Web App

Role: Frontend Developer

Technologies: React.js, Redux Toolkit, Tailwind CSS, Axios, REST APIs **Responsibilities:**

- Designed and developed the complete user interface for the platform.

- Designed the complete UI/UX workflow from authentication to AI-generated voice synthesis.
- Built reusable and maintainable React components.
- Integrated backend APIs for audio processing and user interactions.
- Implemented Audio Recording & Playback functionality.
- Managed application state using Redux Toolkit.
- Developed responsive layouts for desktop and mobile devices.
- Collaborated with backend and AI teams to ensure smooth integration.
- Improved user experience through modern UI/UX design principles.

2. E-Commerce Web Application

Technologies: React.js, Redux Toolkit, Tailwind CSS, Axios Responsibilities:

- Developed a fully responsive e-commerce web application.
- Built product listing and product details pages.
- Implemented shopping cart functionality.
- Integrated REST APIs for products and user authentication.
- Managed global application state using Redux Toolkit.
- Implemented routing and navigation between pages.
- Optimized performance and component reusability.
- Ensured compatibility across different screen sizes and devices.

Skills & abilities Technical Skills

- Frontend Technologies: HTML5, CSS3, JavaScript (ES6+), TypeScript (Basic)
- Frameworks & Libraries: React.js, Next.js (Basic Knowledge), Redux Toolkit, React Router, Tailwind CSS
- API Integration: REST APIs, Axios, JSON
- State Management: Redux Toolkit, React Context API
- UI/UX & Design: Responsive Design, Mobile-First Design, Figma
- Development Tools: Git, GitHub, VS Code, Postman, npm
- Web Performance: Component Reusability, Code Optimization, Lazy Loading
- Database Knowledge: MySQL, PostgreSQL (Basic)
- Other Technologies: Audio Recording & Playback Integration

Soft Skills

- Problem Solving
- Team Collaboration
- Communication Skills
- Time Management
- Fast Learning
- Attention to Detail
- Adaptability

CERTIFICATES

- Frontend (React, HTML, CSS, tailwind css, Wordpress) Route
- Python, AMIT

LANGUAGES

- **Arabic: Native**
- **English: Intermediate (B1)**
